

# Understanding academic performance through play

Can play help us to reflect on our actions, values and beliefs?

In this facilitated session we use Lego SeriousPlay® (LSP) to reflect upon our academic performance and identity.

You will gain insight into:

Individual and collective reflective practice using LSP  
(we will be building and sharing models)

What it means to reflect through play

The value of play in reflecting from and for our work roles

No flip charts, no note taking, no strategy, just building, talking, listening and reflecting

Dr Leigh Morland
